Contents

Number 1, January 1986

1 Point of view
G. E. ROELANTS: Natural resistance to African Trypanosomiasis

11 H. S. HILL, R. BOID and C. A. ROSS: Isolation and characterization of salivary antigens from *Hyalomma anatolicum anatolicum*

27 M. OLIVIER, P. TIJSSEN and P. VIENS: Participation of IgG2b antibodies in the initial control of *Trypanosoma musculi* infection

31 M. S. H. GIANNINI: Sex-influenced response in the pathogenesis of cutaneous leishmaniasis in mice

39 R. J. HOWARD, L. J. PANTON, K. MARSH, I. T. LING, E. J. WINCHELL and R. J. M. WILSON: Antigenic diversity and size diversity of *Plasmodium falciparum* antigens in isolates from Gambian patients. I. S-antigens

56 R. J. HOWARD, J. S. MCRRIDE, S. B. ALEY and K. MARSH: Antigenic diversity and size diversity of *P. falciparum* antigens in isolates from Gambian patients. II. The schizont surface glycoprotein of molecular weight ~200 000

69 B. R. SHIELS, C. MCDOUGALL, A. TAIT and C. G. D. BROWN: Identification of infection-associated antigens in *Theileria annulata* transformed cells

79 E. J. PEARCE, P. F. BASCH and A. SHER: Evidence that the reduced surface antigenicity of developing *Schistosoma mansoni* schistosomula is due to antigen shedding rather than a host molecule acquisition

95 Q. D. BICKLE, B. J. ANDREWS and M. G. TAYLOR: *Schistosoma mansoni*: characterization of two protective monoclonal antibodies

Number 2, March 1986

109 N. R. LYNCH, C. MALAVÉ, K. J. TURNER and B. INFANTE: IgE antibody against surface antigens of *Leishmania* promastigotes in American cutaneous leishmaniasis

117 A. FERRANTE: The role of the macrophage in immunity to *Trypanosoma musculi*

129 N. F. MISTRY, T. J. BIRDI and N. H. ANTIA: *M. Leprae* phagocytosis and its association with membrane changes in macrophages from leprosy patients

139 P. K. F. YEN, P. G. HOLT, N. F. STANLEY and K. J. TURNER: *In vitro* antibody-mediated macrophage activity on *Breinlia macropi* microfilarae. I. Adherence and cytotoxicity

149 J. NEWSON, J. NAESSENS, D. A. STAGG and S. J. BLACK: A cell surface antigen associated with *Theileria parva lawrencei*-infected bovine lymphoid cells

159 D. WAKELIN, L. A. MITCHELL, A. M. DONACHIE and R. K. GRENCIS: Genetic control of immunity to *Trichinella spiralis* in mice. Response of rapid- and slow-responder strains to immunization with parasite antigens

171 P. S. CRAIG: Detection of specific circulating antigen, immune complexes and antibodies in human hydatidosis from Turkana (Kenya) and Great Britain, by enzyme-immunoassay

189 Brief communication
W. C. BROWN and K. S. LOGAN: Bovine T-cell clones infected with *Theileria parva* produce a factor with IL 2-like activity

193 Brief communication
C. KELLY, A. J. G. SIMPSON, E. FOX, S. M. PHILLIPS and S. R. SMITHERS: The identification of *Schistosoma mansoni* surface antigens recognized by protective monoclonal antibodies

199 Errata

Number 3, May 1986

201 P. K. F. YEN, P. G. HOLT, N. F. STANLEY, J. M. PAPADIMITRIOU and T. ROBERTSON: *In vitro* antibody-mediated macrophage activity on *Breinlia macropi* microfilariae. II. Ultrastructural and video recording investigations of adherence and cytotoxicity

217 M. N. MALU and H. TABEL: The alternative pathway of complement in sheep during the course of infection with *Trypanosoma congolense* and after Berenil treatment

231 Y. D. MUNESINGHE, K. N. MENDIS and R. CARTER: Anti-gamete antibodies block transmission of human vivax malaria to mosquitoes

239 W. JARRA, L. A. HILLS, J. C. MARSH and K. N. BROWN: Protective

immunity to malaria. Studies with cloned lines of *Plasmodium chabaudi chabaudi* and *P. berghei* in CBA/Ca mice. II. The effectiveness and inter- or intra-species specificity of the passive transfer of immunity with serum

255 G. F. MITCHELL and E. HANDMAN: The glycoconjugate derived from a *Leishmania major* receptor for macrophages is a suppressogenic, disease-promoting antigen in murine cutaneous leishmaniasis

265 J. E. CRABTREE and R. A. WILSON: The role of pulmonary cellular reactions in the resistance of vaccinated mice to *Schistosoma mansoni*

287 Brief communication
D. J. BARRANCE and K. M. HUDSON: Immune responses of mice infected with *Trypanosoma vivax* are depressed but show an inverse correlation with the blood parasitaemia

Number 4, July 1986

293 R. H. DWINGER, A. G. LUCKINS, M. MURRAY, P. RAY and S. K. MOLOO: Interference between different serodemes of *Trypanosoma congolense* in the establishment of superinfections in goats following transmission by tsetse

307 D. J. MCLAREN and M. V. ROGERS: *Schistosoma mansoni*: liver phase challenge attrition is a stage-dependent phenomenon in guinea-pigs vaccinated with highly irradiated cercariae

319 L. J. S. HARRISON and R. M. E. PARKHOUSE: Passive protection against *Taenia saginata* infection in cattle by a mouse monoclonal antibody reactive with the surface of the invasive oncosphere

333 L. Q. VIEIRA, G. GAZZINELLI, J. R. KUSEL, C. P. S. DE SOUZA and D. G. COLLEY: Inhibition of human proliferative responses by released materials from *Schistosoma mansoni* cercariae

345 C. FLETCHER, D. W. BIRCH, R. SAMAD and D. A. DENHAM: *Brugia pahangi* infections in cats: antibody responses which correlate with the change from the microfilaraemic to the amicrofilaraemic state

359 D. I. PRITCHARD, J. M. BEHNKE, A. CARR and C. WELLS: The recognition of antigens on the surface of adult and L4 *Necator americanus* by the human and hamster post-infection sera

369 P. M. PRESTON, C. MCDOUGALL, G. WILKIE, B. R. SHIELS, A. TAIT and C. G. D. BROWN: Specific lysis of *Theileria annulata*-infected lymphoblastoid cells by a monoclonal antibody recognizing an infection-associated antigen

381 L. JAROSKOVA, M. M. SELIM, Z. VLASIN and M. AL-TAQUI: Study of T cell subsets in patients with cutaneous leishmaniasis

391 N. M. ALMOND and R. M. E. PARKHOUSE: Immunoglobulin class specific responses to biochemically active defined antigens of *Trichinella spiralis*

Number 5, September 1986

409 J. H. L. PLAYFAIR and J. B. DE SOUZA: Vaccination of mice against malaria with soluble antigens. I. The effect of detergent, route of injection and adjuvant

415 S. A. MCLEAN, C. D. PEARSON and R. S. PHILLIPS: Antigenic variation in *Plasmodium chabaudi*: analysis of parent and variant populations by cloning

425 S. J. BLACK, C. N. SENDASHONGA, P. WEBSTER, G. L. E. KOCH and S. Z. SHAPIRO: Regulation of parasite-specific antibody responses in resistant (C57BL/6) and susceptible (C3H/HE) mice infected with *Trypanosoma (trypanozoon) brucei brucei*

443 C. N. SENDASHONGA and S. J. BLACK: Analysis of B cell and T cell proliferative responses induced by monomorphic and pleomorphic *Trypanosoma brucei* parasites in mice

455 D. J. FLAVELL and S. U. FLAVELL: *Opisthorchis viverrini*: pathogenesis of infection in immunodeprived hamsters

467 M. ST. J. CRANE, D. J. NORMAN, M. J. GNOZZIO, A. C. TATE, M. GAMMON and P. K. MURRAY: *Eimeria tenella*: quantitative *in vitro* and *in vivo* studies on the effects of mouse polyclonal and monoclonal antibodies on sporozoites

481 A. P. A. MOCKETT and M. E. ROSE: Immune responses to eimeria: quantification of antibody isotypes to *Eimeria tenella* in chicken serum and bile by means of the ELISA

491 J. C. GIBBENS, L. J. S. HARRISON and R. M. E. PARKHOUSE: Immunoglobulin class responses to *Taenia taeniaeformis* in susceptible and resistant mice

503 S. B. DILLON and T. T. MACDONALD: Limit dilution analysis of mast cell precursor frequency in the gut epithelium of normal and *Trichinella spiralis* infected mice

513 E. J. PEARCE and S. L. JAMES: Post lung-stage schistosomula of *Schistosoma mansoni* exhibit transient susceptibility to macrophage-mediated cytotoxicity *in vitro* that may relate to late phase killing *in vivo*

Number 6, November 1986

529 Point of view
R. F. ANDERS: Multiple cross-reactivities amongst antigens of *Plasmodium falciparum* impair the development of protective immunity against malaria

541 H. NIELSEN, A. KHARAZMI and T. G. THEANDER: Suppression of blood monocyte and neutrophil chemotaxis in acute human malaria

551 J. BROWN, B. M. GREENWOOD and R. J. TERRY: Cellular mechanisms involved in recovery from acute malaria in Gambian children

565 K. C. KEE, D. W. TAYLOR, J. S. CORDINGLEY, A. E. BUTTERWORTH and A. J. MUNRO: Genetic influence on the antibody response to antigens of *Schistosoma mansoni* in chronically infected mice

575 D. W. DUNNE, A. M. AGNEW, J. MODHA and M. J. DOENHOFF: *Schistosoma mansoni* egg antigens: preparation of rabbit antisera with monospecific immunoprecipitating activity, and their use in antigen characterization

587 R. K. GRENCIS, C. CRAWFORD, D. I. PRITCHARD, J. M. BEHNKE and D. WAKELIN: Immunization of mice with surface antigens from the muscle larvae of *Trichinella spiralis*

597 C. M. PRESTON, T. JENKINS and D. J. MCCLAREN: Surface properties of developing stages of *Trichuris muris*

613 G. ORTEGA-PIERRES, N. W. T. CLARK and R. M. E. PARKHOUSE: Regional specialization of the surface of a parasitic nematode

619 T. C. JONES, S. ALKAN and P. ERB: Spleen and lymph node cell populations, *In vitro* cell proliferation and interferon-γ production during the primary immune response to *Toxoplasma gondii*

631 F. SANTORO, H. CHARIF and A. CAPRON: The immunodominant epitope of the major membrane tachyzoite protein (P30) of *Toxoplasma gondii*

641 M. SILEGHEM, R. HAMERS and P. DE BAETSELIER: Active suppression of interleukin 2 secretion in mice infected with *Trypanosoma brucei* AnTat 1.1. E

651 M. H. S. L. BLOTTA, M. ALICIA CUROTTO and I. A. ABRAHAMSOHN: Specific suppression of delayed hypersensitivity expression to *Trypanosoma cruzi* in mice

663 E. GHADIRIAN and P. A. L. KONGSHAVN: Protection of mice against intestinal amoebiasis with BCG, *Corynebacterium parvum* and *Listeria monocytogenes*
